

### DESCRIPTION

Vineyard Granite™ Mosaic Thin Veneer is a coarse grain stone indigenous to the central core of New England mountain ranges. The stone is predominantly gray, black and white with splendid crystals of peach and pink. Mosaic stone veneer consists of irregular pieces of natural stone. The shapes are primarily triangles and stop signs, similar to the mosaic dimensions created from broken ice. Sold as individual stones not stone panels.

### LEED® CERTIFICATION & ENERGY EFFICIENCY

Whether it's for a commercial building or historical restoration, this natural building material can assist with the LEED certification. Functionally, stone will retain heat in the winter and cold in the summer, enhancing energy efficiency. [www.stoneyard.com/architect](http://www.stoneyard.com/architect)

### CORNERS

Matching 90° corners are available in all colors and shapes. When other angles are needed, the installation options are weaving (alternating flats) or miter cutting flat pieces to wrap the corner. [www.stoneyard.com/corner](http://www.stoneyard.com/corner)
