

Anchoring the Modern

A Stoneyard® Case Study: Cambridge Blend
Stone Panels at Cliffside Oasis, Curaçao.

The Vision: Grounding the Caribbean Sun

White Stucco.
Glowing in the Caribbean sun.

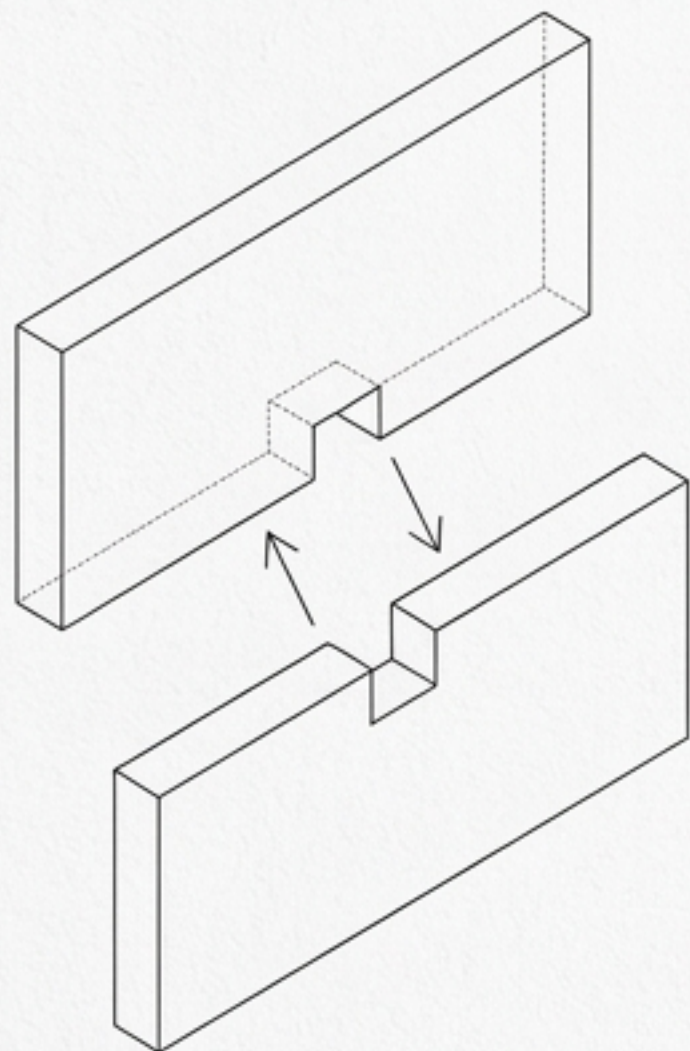

Blue Tile.
Flashing like the sea below.

Real Stone.
Every bold, bright surface needed
something real to hold it down.

To achieve a two-unit vacation rental that felt simultaneously modern and grounded, Canadian owners Rick and Nancy Pereira selected Stoneyard® Cambridge Blend Stone Panels for the most visible exterior walls.

The Homestead™ System

**Reads as hand-laid,
dry-stacked masonry.
Installs in a fraction
of the time.**

Real Stone: Trimmed pieces of authentic natural stone affixed into modular panels.

Interlocking Design: Z-shaped edges interlock seamlessly to hide vertical and horizontal joints.

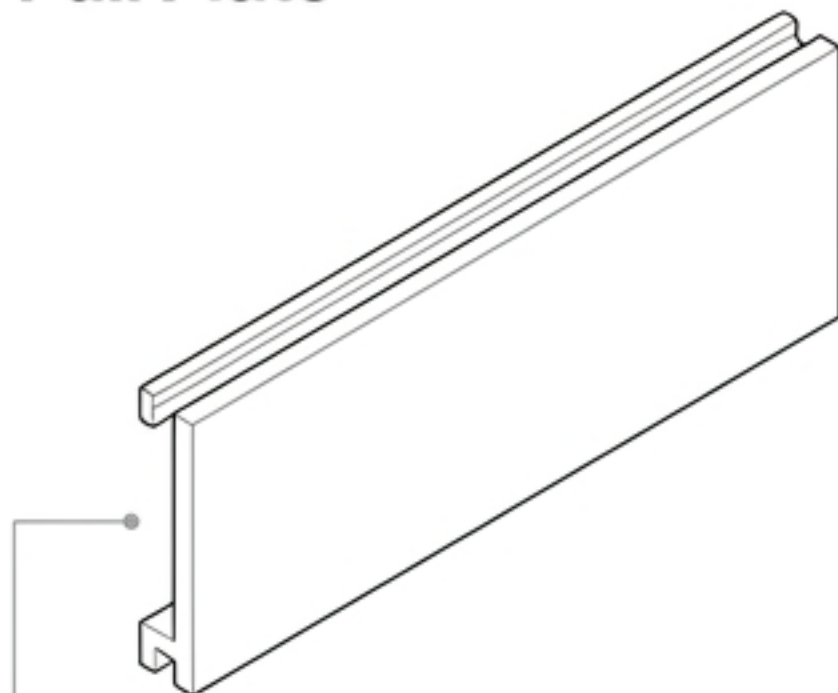

Color Profile: Cambridge Blend—featuring beige, white, gray, and earthy rusts.

Mica Sparkle: Subtle to pronounced sparkling elements embedded naturally in the stone.

Component Specifications

Full Flats

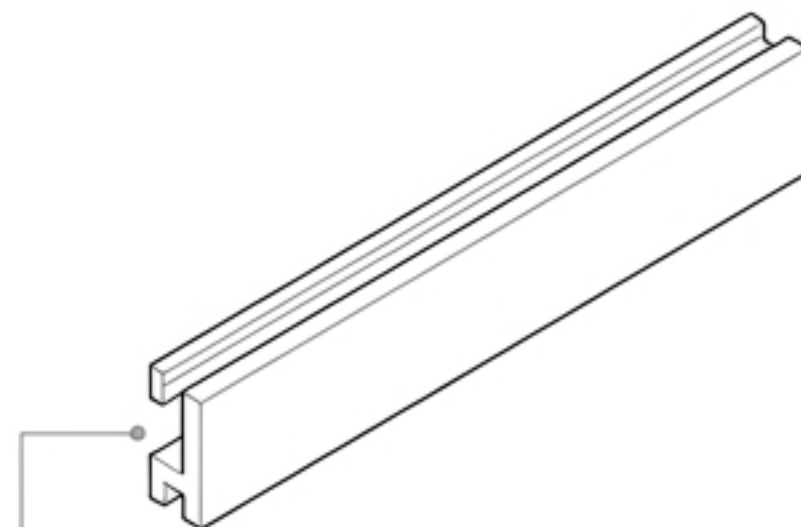

Size: 23.5" x 8" x 1.25"

Packaging: 2.28 SF Bundle (2 pcs)

Use Case: Expansive vertical surfaces like the central pool wall.

Half Flats

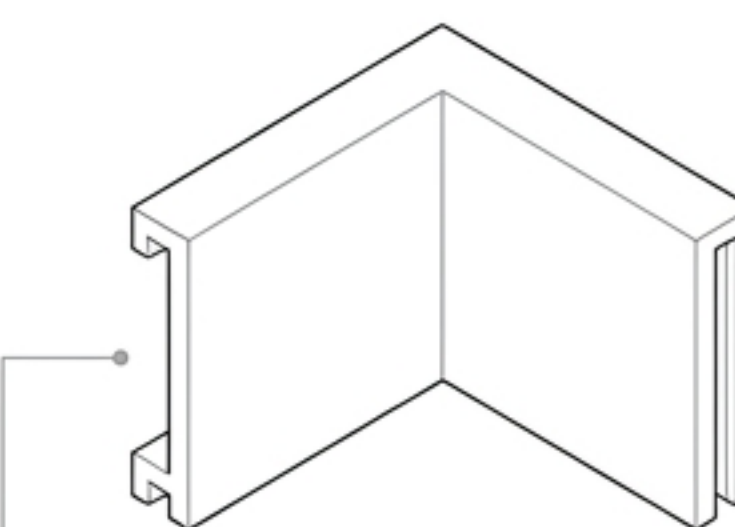

Size: 23.5" x 4" x 1.25"

Packaging: 1.125 SF Bundle (2 pcs)

Use Case: Detailed masonry banding and tighter vertical spaces.

Corners

Size: 13.25" / 7.25" x 8" x 1.25"

Packaging: 0.67 LF per pc

Use Case: 90-degree outside wraps to maintain the solid-stone illusion.

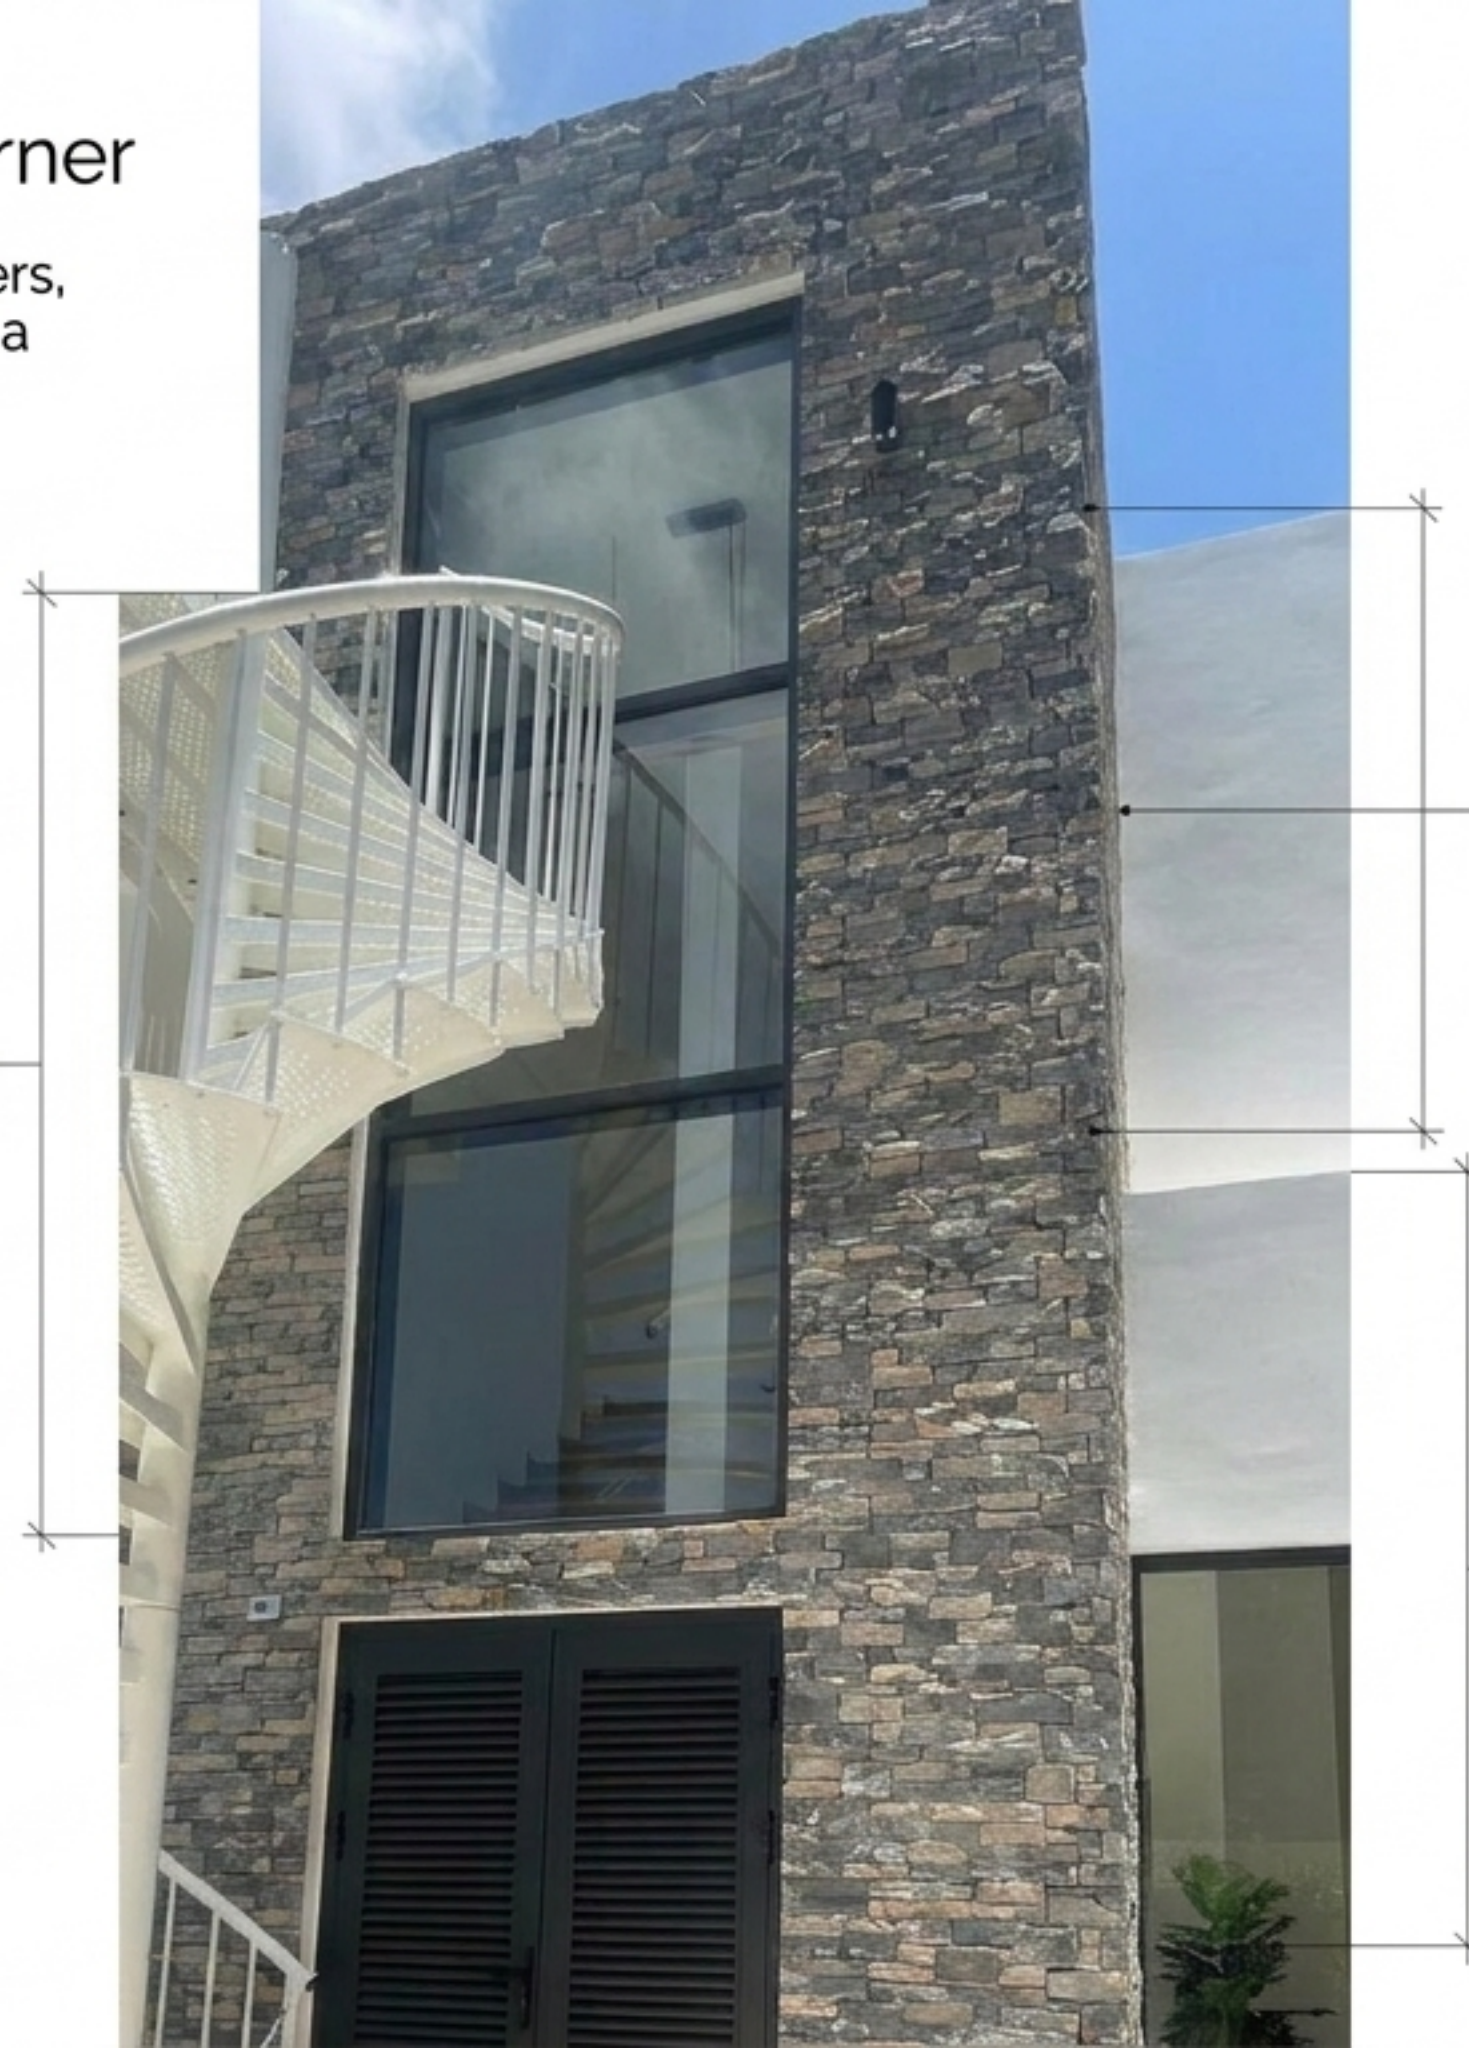

Anatomy of an Outside Corner

On a design with multiple columns, towers, and parapets, exposing the thin edge of a veneer shatters the illusion of structural masonry.

The L-Shape: Dedicated corner pieces wrap the 90-degree edge seamlessly.

The Illusion: The corner profile visually implies full-depth, structural stacked stone.

The Execution: 82 linear feet of outside corners were utilized across the Cliffside Oasis footprint to ensure visual integrity from every viewing angle.

Integration Across the Footprint

The stone-clad tower anchoring the backyard putting green.

Stacked-stone privacy walls framing the rooftop pool pavilion.

Cambridge Blend columns defining the tropical entry courtyard.

ABOUT STONEYARD

Natural stone veneer since 1985.

Stoneyard® manufactures natural thin stone veneer in Littleton, Massachusetts. Four decades of real stone for walls, columns, pools and outdoor living.

Cambridge Blend Stone Panels, the stone at Cliffside Oasis, are real, trimmed natural stone set into modular, interlocking panels that hide their joints, with matching corner pieces that wrap every 90-degree outside corner.
